Golden, CO 80401

To Ms. Carlson,

Thank you for providing comments to the Sedgwick County Planning & Zoning Department regarding the Overland Pass Energy East ("OPE") utility-scale wind system application. We appreciate your diligence in reviewing the material, specifically as it related to the Desktop Geohazard Report.

Your comments indicate a request for clarity on the Project grading plan and continued recommendation for a stormwater management plan specifying BMPs to minimize erosion around turbines, substations, roads, etc. to be prepared. Prior to submitting building permit applications, OPE will provide the county with both a detailed grading plan and a stormwater management plan that specifies BMPs to minimize erosion around all project infrastructure.

Please reach out with further questions.

Sincerely,

Chase Marston
