Sedgwick County Board of Commissioners

315 Cedar Street, Suite 110
Julesburg, Colorado 80737

Re: Support for Overland Pass Energy Wind Project

Sedgwick County Commissioners,

I was born in Julesburg and raised on our family farm, established in the early 1940s. After graduating college and returning from Vietnam, my wife Sylvia joined me on the farm where we raised our family. Our daughter and son-in-law returned to Sedgwick County in 2022.

We are supporting the Overland Pass Energy project as we see it as a pathway to economic development for the entire county. It is important to acknowledge that some Sedgwick County residents have young children who are our future and deserve a prosperous economic outlook.

Approval of this project by the Board of Commissioners is a positive step in encouraging economic development, present and future, for all residents of Sedgwick County. Please vote in favor of the Overland Pass Energy project.

Thank you,

Dave and Sylvia Deden

Dennis and Maggie Conner
